Systems  
Furniture**

Innovative  
laboratory solutions

Supplying laboratory furniture for  
Education, Healthcare and Research  
& Development applications.

We offer bespoke and off-the-shelf systems to suit all our customer needs

# Lab Systems Furniture Ltd

We are leaders in the design, manufacture and installation of laboratory furniture in the UK and overseas. We provide excellent service and unrivalled quality combined with ultimate value for money.

As Lab Systems Furniture approaches its fifth decade in business, we continue to be successful for one consistent reason; our clients in Education, Healthcare and Research and Development recognise that we supply superior products that are designed, manufactured and installed to exacting standards.

*"Lab Systems provided me with a service that surpassed my expectations."*

TONY STEADMAN, MARRIOTT CONSTRUCTION

*"Excellent service and value for money."*

SIMON ALDWORTH, FACILITIES MANAGER, UNIVERSITY OF OXFORD

With our wealth of specialist knowledge and experience, Lab Systems Furniture has the flexibility to offer bespoke and off-the shelf systems to suit any project, no matter how large or small.

*"The refurbishment of our laboratories was first class."*

PAT LAMBERT, BUSINESS MANAGER, BEVERLEY GRAMMAR SCHOOL

After years of experience working with both conventional and specialised material, our design team is acknowledged across the industry as experts in their field.

Supported by the latest techniques and state of the art technology, our manufacturing team prides itself on its traditional craftsmanship and attention to detail.

Lab Systems Furniture is committed to protecting the environment by using materials from a sustainable source.

- Initial consultation service
- CAD drawing service
- Full cost analysis
- Working to CDM regulations
- Site staff CSCS, CSSS & CSMSC card holders
- NICEIC Electrical Engineers
- Gas Safety registered Mechanical Engineers
- All work carried out to current British Standards

- **Bespoke and off-the shelf systems**
- **Expertise in both conventional and specialist materials**
- **High quality craftsmanship**
- **Working to environmental and Health & Safety standards**

A wide spectrum of system types and finishes available for general purpose installations and highly specialised requirements.

Total co-ordination across our Fixed, Cantilever & Legframe Systems

# Furniture Systems

A full range of furniture systems is available allowing co-ordination between all system types to create a totally flexible approach to furniture, storage and specialised laboratory needs.

All systems can be freely mixed, thereby offering both mobile and fixed storage where required.

The benches can be installed with ancillary specialised storage items such as fumecupboards, giving an integrated appearance. In addition there is a full range of related storage and ancillary items to equip your laboratory completely.

Our laboratory furniture offers total co-ordination across our Fixed, Cantilever and Legframe Systems allowing interchange and permitting the user to mix and match.

The materials and components we use are of the best quality with specific finishes available for general purpose installations and highly specialised requirements.

- **Mobile and fixed storage available**
- **Integrated fumecupboards**
- **Fixed, Cantilever & Legframe Systems**

- Wall & Island benching
- Reagent shelving
- All types of storage units
- Balance benches
- Bench electrical services
- Bench water and gas services
- Fumecupboards & related services
- DDA compliant furniture
  
- Solid grade laminates (Trespa, Formica)
- Cast epoxy resin
- Solid surfaces (Corian, Velstone)
- Ceramic
- 316q stainless steel
- Vulcathene waste systems
- Medium density fibre board
- Epoxy powder coated metalwork

We create furniture designs & achieve highly efficient working systems to complement any industrial or educational organisations' needs in their new laboratory.

All our products meet COSH, BSI & DIN standards

# Planning & Project Management

Creating individual touches of flair to create properly fitted furniture systems to a high technical & visual standard.

Lab Systems Furniture is a long established company with experience of working with architects and project planners and has managed to complement traditional craftsmanship with the latest techniques and state of the art technology.

In this technological era in which the word 'Quality' dominates the requirements of managers and technical staff and 'Value for money' dominates the requirements of the buyer, here at Lab Systems Furniture we can provide quality service to suit the budget of the buyer and the quality product demanded by the end user.

Lab Systems Furniture has created furniture designs and highly efficient working systems to meet the laboratory needs of any industrial or educational organisation.

We find that visitors to our company are very impressed by the amount of effort our design team puts into creating individual touches of flair to create properly fitted furniture systems to a high technical and visual standard and giving the client an individual design of high capability and quality build.

Lab Systems Furniture is one of the fastest growing companies in its sector with numerous laboratory projects completed and many highly satisfied clients.

The company's success is in large part due to quality personnel, single point responsibility on projects and adaptation to varying types of client requirements, from refurbishments to new build.

- **Innovative design & planning**
- **Experienced project design engineers**
- **CAD planning & design**
- **From refurbishment to new build project planning**

Everything required in a modern 21st century teaching environment from fixed furniture in general teaching areas to ICT suites, Design and Technology Areas & Laboratories.

Providing school furniture 'Private Finance Initiative' projects

# School & Academy Furniture

We can supply robust yet stylish furniture affordable within your school budget.

With experience of supplying school furniture and equipment to recent 'Private Finance Initiative' projects across the UK, Lab Systems Furniture can provide quality, service and value for money in the design, manufacture and installation of school furniture.

We can supply everything required in a modern 21st century teaching environment from fixed furniture in general teaching areas to ICT suites, Design and Technology areas and laboratories.

- Science & Technology rooms
- Computer work stations
- Fixed and loose furniture
- Under bench, pedestals & wall storage
- Library and Resource areas
- General and mobile storage
- Tray storage
- Tables & desking
- Seating
- Woodwork & metalwork benches

- Bag store units
- Full turnkey projects
- Renewal and refurbishment projects

- **New and refurbished furniture projects to suit all budgets**
- **Successful school & academy PFI's completed**
- **Service and value for money**
- **BS EN 1729 Standards for furniture in schools**

We can design, manufacture & install everything to create a modern functional and highly durable laboratory.

Creating an environment in which students will want to learn

# Higher Education

Over a considerable period of time we have developed an expertise that is second to none.

Lab Systems Furniture has installed furniture projects in Universities, Colleges and Academies over a considerable period of time and has developed an expertise that is second to none.

We can design, manufacture and install everything required to create a modern functional and highly durable laboratory.

With the means to develop a complete scheme from conception through to advice on materials & finishes, we can create an environment in which students will want to learn.

- Teaching Laboratories
- Research Laboratories
- Fumecupboards
- Ancillary services
- Full turnkey projects
- Planning & design
- Full project management
- CAD drawings
- Project cost analysis

- **Advice on materials & finishes**
- **Co-ordination with other trades**
- **Quality service from concept to completion**

A wide spectrum of system types and finishes available for every project from general purpose installations to highly specialised requirements.

Designed with both functionality & ergonomics at the forefront

# Working with Industry

All our laboratory furniture is carefully designed with functionality, durability, reliability & ergonomics at the forefront.

We believe that the stringent health and safety regime demanded in modern chemical and pharmaceutical industries is easier to implement in an environment that is designed with these demands in mind. Therefore, all of our laboratory furniture is carefully designed on ergonomic principles to ensure functionality, durability and reliability.

We are expert at matching the appropriate materials to the predominant chemicals needed in a laboratory and we have a wide selection of system types and finishes available.

Once the potential environment is known, we pay acute attention to materials selection to ensure fitness for purpose, with durability and reliability being of paramount importance.

- Clean rooms
- R&D Laboratories
- Research Laboratories
- Quality Control Laboratories
  
- Full Turnkey Installations
- Fumecupboards & extraction
- DDA compliant furniture
- Safety Stations
- Solvent storage
- Mechanical & Electrical installations

- **Vast knowledge of materials & components**
- **A wide spectrum of system types & finishes**
- **Durability & reliability being of paramount importance**

Highly specialised requirements are needed to cope with a fast moving and high pressure environment.

Many different high specification materials are available

# Meeting the demands of Healthcare

Highly specialised requirements are needed to cope with a fast moving and high pressure environment.

The Healthcare sector is a high pressure environment with very specialised requirements. Fixtures and fittings need to have the high specifications of a commercial laboratory but also need to look welcoming to, often anxious, patients.

We can offer creative design based on ergonomic principles to produce an attractive yet robust and durable finish.

Many different high specification materials are available. Let our design team help you to choose the most appropriate products to suit your requirements.

- Systems Types
  - HTM 63 - Pedestal
  - HTM 64 - Sanitary
  - HTM 67 - Spine Hung
  - HTM 71 - Storage
- Worktops
  - Solid Laminate
  - Linoleum
  - Corian
  - Stainless Steel
- Nurse Stations
- Safety Stations
- Reception areas

- **HTM design standards**
- **High specification materials**
- **Easy to maintain and clean**

We can design, manufacture & install a full range of student furniture for Halls of Residence and Teaching Rooms.

A variety of materials and colours are available

# Student Furniture

A robust finish, ergonomic & well thought out design being the main priority.

We can design, manufacture and install a full range of student accommodation and office furniture either from our existing ranges or made to order to suit a particular project.

We can supply and install bedroom, study and kitchen furniture and appliances all constructed to a quality and style to meet the demands of the modern environment.

Halls of residence, whether new build or refurbished, can be furnished from our selection of quality furniture to include storage, study areas, bedrooms, utility and kitchen areas.

- Writing Bureaus
- Beds
- Wardrobes
- Sofas
- Chairs
- Tables
- Bookcases
- Cabinets

- **Halls of Residence**
- **Teaching rooms**
- **Bedrooms, study & kitchen furniture**

# Case Studies

## Why use Lab Systems Furniture Limited?

*“Throughout the project Lab Systems Furniture have been helpful and resourceful in offering solutions to the client and have worked closely with Kier North West in achieving 3 phased completion dates. This approach is apparent through the company, from directors, technical staff and operatives on site.”*

RICHARD ROBINSON, SENIOR PROJECT SURVEYOR, KNW

*“Trying to identify a professional company that offers both an excellent service and value for money is not very easy, but I am happy to say Lab Systems Furniture exceeded all of my expectations.”*

SIMON ALDWORTH, FACILITIES MANAGER, UNIVERSITY OF OXFORD

*“The refurbishment of our laboratories was first class. The work was of a high standard with all our requirements being fulfilled. The job was well co-ordinated and completed on time. I would have no hesitation in using Lab Systems Furniture in the future.”*

PAT LAMBERT, BUSINESS MANAGER, BEVERLEY GRAMMAR SCHOOL

*“The quality and workmanship of the furniture is to an excellent standard and we are all delighted with the end result. I have no hesitation in recommending Lab Systems Furniture as a suitable partner for anyone contemplating a similar project.”*

MALCOLM PARKES, PROJECT MANAGER,  
ESTATES AND FACILITIES, PARK LANE COLLEGE LEEDS

*“I am not in the habit of recommending sub contractors. However, Lab Systems Furniture provided me with a service that surpassed my expectations and I am therefore happy to recommend them on the basis of my experience.”*

TONY STEADMAN, SITE MANAGER, MARRIOTT CONSTRUCTION
