

▶ CT320 PC based ECG Machine

available for hire or purchase for your clinical trial.

Overview

The CT320 is a PC based interpretive ECG Machine with USB connectivity. The CT320 acquires the ECG on any computer/laptop within your healthcare network, allowing you to directly transfer the patient's ECG report into your Electronic Medical Records (EMR). It is compatible with all leading EMR systems.

Cardio software automatically exports a pdf ECG file to a destination of your choice enabling ease of attachment to the EMR or for emailing to specialist ECG centres and use in tele-health applications.

Operating Features

- Easy to use interface
- Supplied complete with USB connection cable, full length patient cable, alligator clips, 500 disposable electrodes and cardio software (no licence fee)
- Cardio software automatically exports a pdf ECG file to a selected destination
