

► Precision Balance

available for hire or purchase for your clinical trial.

Overview

This range of precision balances are designed to deliver the ultimate in speed and accuracy in an easy-to-use and reliable model. The attractive functional design and advanced features make this precision balance your best choice for your laboratory balance.

All the features are packaged into a high power, high performance balance, saving you valuable time and resources.

Readability to 0.001g depending on model. There are 8 models in the range with varying maximum capacities.

Specification

- Applications: weighing, net/total, check weighing, percentage weighing, weight accumulation, averaging, parts counting, animal/dynamic weighing, density determination, below balance weighing
- Units Of Measurements: g, kg, mg, ct, lb, Oz, d, GN, Ozt, dWt, MM, TL.H, TL.S, TL.T, ti, N, custom unit
- Draft shield supplied as standard with models with 0.001g readability
- Power Supply: 15VDC, 50/60Hz, 800mA
- Weight: 5.5 kg
- Dimensions: 104h x 251w x 358d mm

Operating Features

- Metal casing
- Force restoration mechanism
- RS-232 bi-directional interface
- Accessories interface
- Security locking station
- Calibration: internal or external, selectable automatic calibration due to change in time or temperature
- GLP print outs
- Colour coded keys
- Backlit LCD with dual display (featuring date and time)
- Capacity tracker
- Multilingual display
- Calculate and measure batch weights

Please contact us for a quotation for the hire or purchase of this product.

Product description - Precision Balance
Product code - WD7605
