

## NEW FURNACES DATA SHEET

# GAS TURBINE COATING SYSTEM

Coating of the heat-resistant elements of gas turbines

## TECHNICAL INFORMATION

- Pack Coating
- Vapor Phase Aluminizing (VPA)
- Vapor Phase Chromizing (VPC)
- Chemical Vapor Deposition (CVD)
- FIC Furnace System
- Coating Furnace System
  - Electrically heated furnaces
  - Reaction chamber – retort
  - Vacuum system – hydrogen and argon delivery system
  - Halide gas for CVD
  - Gaseous HF delivery system for FIC
  - Fume neutralization system (scrubber or bubbler)
  - Fixtured parts or coating box(es)
  - Gas cabinets and delivery systems with small installation area

We represent Seco Warwick (one of the largest furnace manufacturers in Europe) for their range of Vacuum and Atmosphere furnaces, and are sure to have the type of furnace you require within their product range – see [www.secowarwick.com.pl](http://www.secowarwick.com.pl)
