Twinflute™ is a fibre-free, flexible, versatile, non-toxic corrugated plastic.

Twinflute™ is the perfect water resistant, ultra tough, plastic sheet material which is currently used to package a myriad of products for a multitude of different industries worldwide.

Twinflute™ can be cut, creased, folded, welded, stapled, printed and re-used.

Twinplast are experts in manufacturing **trays, containers, multi-trip packaging, divider sets, protective packaging, layer pads, recycling bins and automotive packaging.**
