

Our shutters have been developed over many years to give easy and quiet operation whilst maintaining optimum rigidity with efficient weight per metre.

## PVC SIDE OPENING SHUTTER SYSTEMS

- This system is mainly aimed at side opening cabinets up to 2 metre high.
- A full range of tracking is available to match the requirements of steel or wooden cabinets of various sizes.
- Other accessories can complement the system : various types of locks and handles.
- Standard colours are offered to suit every customer's requirements : plain, woodgrain, aluminium finishes.
