Sub contract machining specialists

Kemmel Ltd

Over 30 years' experience in CNC machining services

We pride ourselves on delivering world class machining services, specialising in high end precision components, providing bespoke parts for a multitude of industries.

Our CNC machining plant which includes the latest multi axis CNC machining centres give us the capability to machine complex forms with 3D milling and turning software, bringing Kemmel to the cutting edge of technology.

Our services include CNC milling, CNC turning, CNC EDM, cylindrical and surface grinding and tool making. Our CNC machining specialists have many years' experience in high precision CNC machining, and we can also design and manufacture any required fixturing and jigs to facilitate the work holding of specific components or castings.

Whatever your requirement, we will do our best to ensure the method of manufacture is efficient and optimised. Whether it is CNC milling or CNC turning we believe we can deliver first class machining, quality and delivery services.

Our skilled workforce has the experience of working with a wide variety of materials including stainless steel, aluminium, brass, phosphor bronze and cast iron.

We offer our clients a one stop shop for one-off precision machine prototypes, through to volume production.

Inspection is carried out in our fully equipped temperature controlled quality department which includes a full CNC co-ordinate measuring machine with fully motorised head.

Kemmel Ltd prides itself on building and maintaining close relationships with all its customers and suppliers ensuring the continued growth of our business. Our professionalism, along with a continued interest in the advances in machining technology, allows us to deliver a world class service.

Our services include:

- **Precision C.N.C machining in large and small batches**
- **Specialised mechanical assembly**
- **Complete manufacture of jigs, tooling and fixtures**
- **In house Painting to MOD/Aerospace specifications**
- **In house Alocrom 1200 finishing**
- **Component inspection and supporting documentation**
- **Kan Ban stock holding and scheduling**

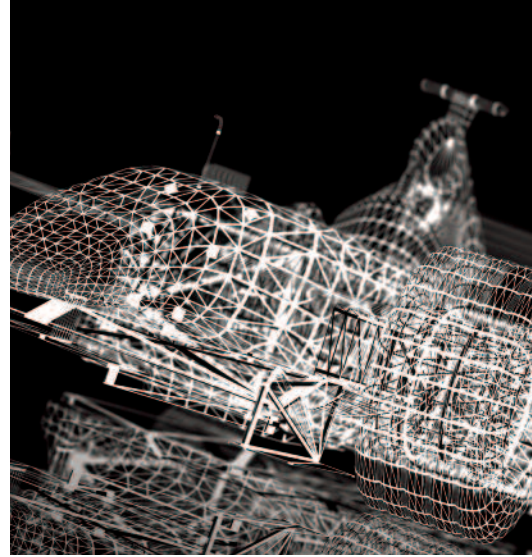

We support the following industries:-

- **Aerospace**
- **Defence**
- **Medical**
- **Motor Sport**
- **Oil & Gas**
- **Pumps & Compressors**
- **Teaching**
- **Automotive**
