HYDRON Graffiti Removers

A Comprehensive Range of Environmentally Safe Graffiti Removers

- Effective and Safe
- Easy to Use
- Ozone Friendly

AG 2: For Sensitive Surfaces
Effective 'low odour' formulation for removal of all types of graffiti from plastics and other sensitive surfaces, and will not 'haze' transparent polycarbonate sheeting.

AG 3: For Non-Porous Surfaces
Removes of all types of graffiti from paintwork, glass, tiles, metal, anti-graffiti coatings and other non-porous surfaces.

AG 4 GEL: For Porous Surfaces
For removal of all types of graffiti from brickwork, concrete and stone and other porous surfaces where a longer 'dwell time' is needed for effective removal.

SL1 Shadow Lifter
A specifically formulated alkaline cleaner for the removal of stubborn graffiti shadows from brickwork, stone and concrete.

Nu-Guard® AF Anti-Flyposting

Lasting Protection Against Flyposting

- Anti-Graffiti
- Textured Finish
- Chemical Resistant
- Wide Colour Range

Nu-Guard® AF is a textured system with excellent fly poster resistance and removal properties.

When overcoated with Nu-Guard® AG the system offers an excellent decorative appearance and outstanding resistance to solvents and chemicals, making it an exceptional anti-vandal system.

Nu-Guard® Mural Paints

User Friendly Mural Paints Combining Colour and Protection

- Water Based
- Extensive Colour Range
- Optional Anti-Graffiti Glaze

Nu-Guard® Mural Paint is a water based coating with an excellent decorative appearance.

This is a user friendly paint system which is ideal for supervised school and community groups to apply mural projects.

Murals can be overcoated with Nu-Guard® AG to provide an anti-graffiti finish.

CGI is a unique formulation of non-aqueous cleaning and degreasing chemicals based upon citrus oils.

CGI will remove chewing gum from paving, tarmac and concrete.

Being a natural product CGI is biodegradable and safe to enter drains when used on paved areas.

CGI Chewing Gum Remover

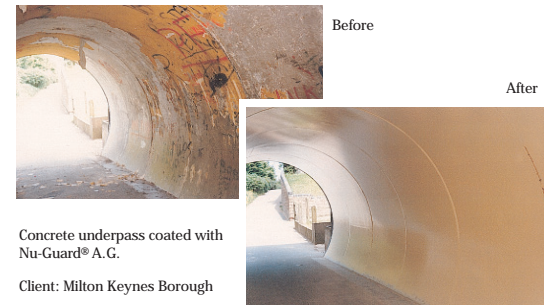

ALI has been developed to remove self adhesive labels from surfaces such as telephone kiosks, street furniture and painted surfaces.

Supplied in trigger sprays for easy application.

ALI Adhesive Label Remover

Anti-Graffiti Coatings 01902 450950

Concrete underpass coated with Nu-Guard® A.G.

Client: Milton Keynes Borough

Nu-Guard® AG exterior anti-graffiti coating system

Lasting Protection against Vandalism and the Environment

- Anti-Graffiti
- Weatherproof
- Gives Up To 12 Years Protection
- Chemical Resistant
- Wide Colour Range

Nu-Guard® AG is a urethane based smooth anti-graffiti coating with an excellent decorative appearance and outstanding resistance to solvents and chemicals, making it an exceptional anti-vandal coating.

Nu-Guard® AG finish is available in full gloss, satin or matt, and is U.V. resistant.

Reconstructed stone bridge parapets coated with Nu-Guard® Polymeric

Nu-Guard® Polymeric sacrificial coating system

Economical Protection Against Graffiti

- Anti-Graffiti
- Invisible
- Moisture Vapour Permeable
- Environmentally Safe

Nu-Guard® Polymeric sacrificial coating system

Nu-Guard® Polymeric is a specially formulated and blended water based resin for use as a protective sacrificial anti-graffiti system over new or previously painted substrates.

Molineux Stadium

Client: Wolverhampton Wanderers F.C.
Architect: Alan Cotterill Partnership

Nu-Cryl® AG Clear Protection

Economical Clear Protection for Brick, Stone and Concrete

- Anti-Graffiti
- Moisture Vapour Permeable
- Gives up to 15 years protection
- No Colour Change

Nu-Cryl® AG is an acrylic-based impregnation coating for exterior surfaces. Applied by brush or airless spray it provides protection against solvents, chemicals, grease, oil, dirt and weather damage while still allowing the substrate to 'breathe'.

Nu-Cryl® AG will not noticeably change the surface appearance and graffiti can be effectively removed using Hydron AG3 Graffiti Remover. No reapplication of Nu-Cryl® AG is necessary.

The consistency of Nu-Cryl® AG allows excellent coverage rates, making it an extremely cost effective method of achieving long life protection.

Stretford War Memorial
Client: Trafford M.B.C.

Nu-Sil® AG the invisible protector

Invisible Protection for Brick, Stone and Marble

- Stain Resistant
- Graffiti Resistant
- Moisture Vapour Permeable
- Will not change substrate colour or sheen

Nu-Sil® AG is a tough, colourless, rapid drying water based impregnation. For interior and exterior use. Applied by brush or spray, it creates a waterproof, dirt, grease and oil repellent surface, without blocking the pores of the substrate, and without changing the colour.

Graffiti can be effectively removed using Hydron AG3 Graffiti remover.

General stains can be easily removed by washing with Hydron MCI - Multiclean, followed by rinsing with clean water.
