Mesh industrial partitioning is the ideal solution when you need to create safe and secure areas within warehouse or storeroom.

Nationwide Delivery

Delivery

All prices are inclusive of delivery to the areas indicated in the schedule below. All orders under £150 are subject to a £6.95 small order charge. Goods shall be delivered within 5 days from payment, if available from stock. Delivery will be to a ground floor location and heavy items may require fork lift unloading and/or assistance on site. Delivery is to a business address Monday to Friday 8.30am to 5.00pm. Restricted delivery areas or residential addresses may incur a surcharge.

Prices

All quoted prices are exclusive of VAT at the prevailing rate.

Important

All racking systems are supplied flat packed for assembly on site. Weights and loading are based on UDL (uniformly distributed loads). If the height to depth ratio is more than 4 : 1 then the racking should be secured to the floor or wall.

Clicka Shelving p.4 - 5

The Rivet Racking System:

Rivet Racking uses a central deck support which not only supports the chipboard panel but ties the two face beams together. All components are joined via the heavy duty rivet and key hole slot. A simple and effective way to assemble racking.

Deck support on all levels

Tie Plate

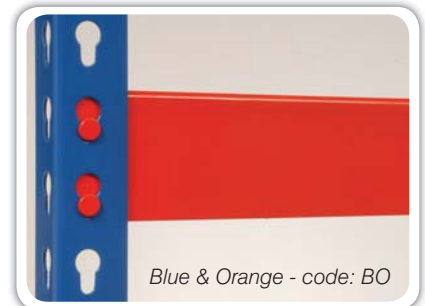

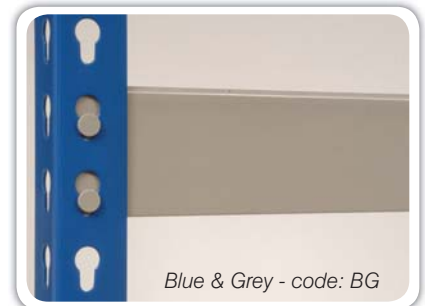

Rivet Racking

Offers incredible value for money, whilst offering amazing strength and rigidity

The system is yet simple to build with all parts being tapped together by a rubber mallet. All components are joined via the heavy duty rivet and key hole slot which offers a simple and effective way to assemble the racking.

All bays come with 4 levels which have a central deck support on bays 1220 to 2135 wide, while 2440mm wide bays have two per level, providing that secret strength to all our RIVET bays.

Colours available:

See p10-11 for Heavy Rivet Short Span...

Rivet Racking Cable Reel Storage

A new solution for organising and dispensing cable or items stored on drums. The simple side beam that supports a 25mm diameter tube which can hold a variety of drums or reels. The beam is notched so the tubes can be located in 5 different positions. Each level is then fitted with a face beam to enable the material to be offered to the user and conveniently cut to length. The units can come as either static racks or as a low level mobile trolley. The bays come either 915 or 1220mm wide and 610mm deep.

Cable reel rack - 1830mm high

Size H x W x D	Code	Tube load (kg)	Bay Price
1830 x 915 x 610	RRCB/18/09/06/4/GY	70	£183.40
1830 x 1220 x 610	RRCB/18/12/06/4/GY	60	£234.00

Cable reel trolley

Size H x W x D	Code	Tube load (kg)	Bay Price
915 x 915 x 610	RRCT/09/09/06/2/GY	70	£273.15

Key Features and Benefits:

- ★ **Get organised quickly**
Keeps the workplace safe and well organised
- ★ **Simple and cost effective**
All made from off the shelf components - no costly bespoke manufacturing
- ★ **Easy to build and reconfigure**
Simply tap together and lay the tubes into the required slot
- ★ **Strong and Sturdy**
Made from Rivet Racking components for proven quality and performance

5 different positions for the tube

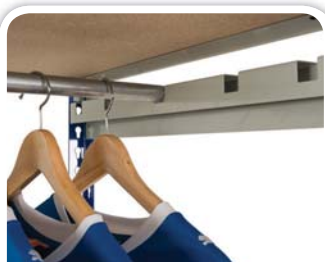

Mobile Cable Reel Rack

Braked castors for additional safety

Rivet Racking Garment Storage

The perfect storage solution for any bulk garment hanging requirement. All constructed from Rivet racking components for simplicity and ease of assembly. The 25mm zinc coated tube slots into place and can be located in five different positions. This can provide a single rail centrally positioned or two rails located on each face of the rack provide twice the capacity. Each storage level can be adjusted every 38mm easily with just a rubber mallet.

Locate the rail in 5 different positions

Z Rivet Racking

New 'Z' profile rivet system offers robust effective storage for any application

The 'Z' profile beam offers incredible strength with a shelf height of only 58mm.

The system requires only a hammer to build and just taps together. There are no nuts and bolts and the bays need no bracing therefore offering uninterrupted access on all four sides.

Bays are available in various heights up to 3660mm high, three widths to 1525mm and five shelf depths to 915mm.

Z Rivet:

Bays with height to depth ratio above 4 : 1 will require fixing back to a wall or to the floor.

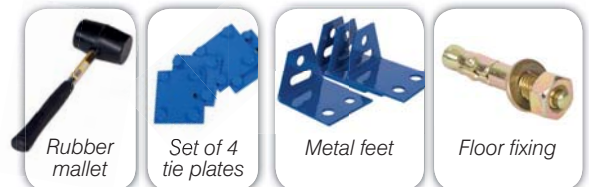

For taller bays, simply add the following prices

Extra Height	Code	Price
bays 2135mm	ZRB/21/--/--/4	£4.20
bays 2440mm	ZRB/24/--/--/4	£8.60
bays 2745mm	ZRB/27/--/--/4	£13.00

Bays with heavy duty euro containers

Low Cost Shelving System

Our new J rivet system has unbeatable strength at an incredible price. It is also manufactured to the high quality you have come to expect from one of the UK's leading suppliers. The shallow J beam profile gives increased storage capacity whilst maintaining excellent strength. It is also compatible with the Z and Heavy rivet systems to increase its flexibility within any installation. The bays are available in six heights, two widths and three depths making space planning of any area simple and effective.

The system is simple to erect yet has all the strength you are likely to need. The bays just tap together with a rubber mallet so you can organise your storage in a fraction of the time it takes with more traditional systems. With the average time to assemble a bay being just 5 minutes, you will be amazed how easy it is to create large installations in no time. All bays are ready for immediate despatch and will be delivered in 5 working days.

Key Features and Benefits:

- ★ **Increase storage density**
A slim 30mm beam profile to maximise storage.
- ★ **Strong epoxy paint finish**
Designed to give years of service and withstand heavy use.
- ★ **Great value for money**
Now even more storage at minimum cost.
- ★ **Easy to build and reconfigure**
Quickly gets your storage organised.
- ★ **No nuts, bolts or screws**
Simple and quick to erect, with no fuss!
- ★ **Guaranteed delivery in 5 days**
There when you want it – no fail.
- ★ **Will suit any application**
Versatile and expandable and suits a wide range of industries.

The affordable system that doesn't compromise on strength and quality

Z Rivet 'Pigeon Hole' Bays

If you need to create compartments to store awkward or valuable items then our Z Rivet Pigeon Hole system provides all the answers. We have designed a standard range of bays, which are all stocked and delivered within 5 days. The system uses the metal structure from our Z Rivet shelving system and with a combination of MDF shelves, dividers and cladding to create a unique and cost effective compartment system. As well as standard bays we can offer bespoke designs so please call to discuss your requirements.

Key Features and Benefits:

- ★ New versatile compartment system
- ★ Create any number of compartments
- ★ Easy to build and re-configure
- ★ Cost effective storage solution
- ★ Tough and smooth MDF panels

Open Shelving Bays

With EXPO 4 it's as easy as 1-2-3

The unique friction steel clip and shelf design allows the system to be safely erected in minutes. It now boasts one of the largest selection of modular capacities and sizes, along with an unrivalled range of accessories all finished in a high quality epoxy powder coat paint. EXPO 4 offers designers and specifiers a solution to meeting any design brief, whether it's a few bays for the office, a multi tier or high bay project for the warehouse.

Open Shelving Bays:

All bays have 6 shelves and are supplied with fixings, bracing and plastic feet.

Key Features and Benefits:

- ★ **Clip fit shelving**
All steel shelf adjustable on steel shelf clips.
- ★ **Strong and simple to build**
Build bays quickly and easily adjust shelves.
- ★ **Flexible storage systems**
Easily adapts to your changing storage needs.
- ★ **Hard wearing paint finish**
Offers a clean and bright epoxy powder paint finish.
- ★ **Huge range of accessories**
Solve all your storage problems, now and in the future.

Colours available:

All bays come with 6 shelves per bay and all necessary fixings, bracing & plastic feet

p. 84 - 91

Back Cladding

Light grey solid back cladding (hook in type)

Simple to fit back cladding panels that simply hook into the upright with no fixings required, they are suitable for both single and double sided runs. The panels are recessed so they finish flush with the back of the shelves whilst also providing the bracing for the bays. Each set comprises of panels 400mm or 500mm high to make the required height of the bay, with the first panel always starting 100mm from the floor.

Galvanised Boltless Shelving

Expo 3 uses the same upright from our Expo 4 shelving system, but has a unique shelf design which can have capacities up to 400kgs UDL. The design is based on a pair of shelf carriers and the combination of 100mm or 200mm panels to make up the required depth.

Key Features and Benefits:

- ★ **Hard wearing galvanised finish**
Tough and bright finish that will last the rigours of any environment
- ★ **Simple and easy to build**
Build bays quickly to get your storage problems sorted fast
- ★ **No nuts, bolts or screws**
Easy to assemble
- ★ **Will suit any application**
Versatile and expandable and suits a wide range of industries

Colours available:

All bays come with 6 shelves and all necessary fixings, bracing and plastic feet

from
£219.⁵⁰

Slotted shelf

Fixed Height Dividers

Expo 3 can now be fitted with a slotted shelf panel and fixed height dividers to create bays with compartments. The dividers are available either 300mm or 400mm high and will fit 300, 400, 500 or 600mm deep bays. The bay prices below are for open shelving and back cladding is on page 31. Other bay and compartment sizes are available to order, please contact the sales office.

Key Features and Benefits:

- ★ New galvanised slotted shelf panel
- ★ Organise your warehouse or store
- ★ Create compartments within bays
- ★ Dividers 300 or 400mm high
- ★ Depths 300, 400, 500 or 600mm
- ★ Side and back cladding (extra cost)
- ★ Dividers can be spaced every 50mm

Fixed Height Dividers:

All bays are open side and back except for necessary bracing. Number of shelves and dividers are indicated below.

Delta Edge Shelving

Our New stylish delta edge shelving is ideal for both office and warehouse environments

The delta profile offers excellent strength but has slim clean lines making it ideal for the office.

The system is an all steel construction with shelves adjustable every 25mm, with a shelf capacity of 80kgs. The 350mm deep shelf has been designed to take standard 330mm lateral files underneath adding extra versatility.

The system is available in standard sizes shown below but also other sizes and accessories are available to order, please contact the sales office.

Key Features and Benefits: ★

- ★ New stylish shelving system
- ★ Ideal for office and warehouse
- ★ All steel construction
- ★ Smoke white finish (RAL9002)
- ★ True delta edge profile
- ★ Shelves adjust every 25mm

Idea 5 Shelving

Our latest bolt free all steel shelving system, offering a cost effective way to provide hard wearing solutions to any storage problem. The hard wearing pre-galvanised steel enables the system to be used in demanding environments whilst giving the system a modern and bright look and feel. With only two components – upright and shelf, the IDEA 5 design has eliminated the need for nuts, bolts or clips meaning bays can be erected quickly and without fuss. The unique connection between the upright and shelf provides incredible stability whilst offering uninterrupted access from all sides of the bay. IDEA 5 has a wide range of sizes so you can easily space plan awkward spaces to get the maximum storage capacity.

Key Features and Benefits: ★

- ★ **No clips or bracing**
- ★ **Unique interlocking uprights**
- ★ **Assemble in minutes**
- ★ **Tough hardwearing finish**
- ★ **Wide range of sizes**

All bays have 5 shelves

Chrome Wire

Our chrome wire shelving system offers simple to build and stylish storage solutions

The system is ideal for home and office as well as retail display due to the open wire construction which offers excellent light distribution onto the products displayed.

The shelving is also suited for kitchens storing dry food and crockery etc, whilst the excellent ventilation through the system makes it perfect for server racks and computer workstations as well as laundry and linen stores.

The nickel chrome finish offers a bright, clean and modern feel to the shelving, but should only be used in dry areas and should not come into contact with moisture.

Key Features and Benefits:

- ★ Strong and stylish shelving
- ★ Nickel chrome finish
- ★ Excellent light and air circulation
- ★ No tools, simply slots together
- ★ Shelf loads up to 300kgs UDL
- ★ Shelf pitch every 25mm
- ★ Use castors for mobile units
- ★ No interfering uprights in corners
- ★ 25mm diameter post

Features:

Uprights have extra marks every 125mm for easier positioning of shelves.

Every post comes with an adjustable leveller.

All bays have 4 shelves, plastic collars and adjustable feet

Deck supports = none on 457mm deep, 1220 to 1830mm wide have 3, 2135 to 2440mm have 4, 2745mm wide have 5 per level

Key Features and Benefits:

- ★ **Heavy Duty Racking system**
Store all your heavy and bulk items with ease.
- ★ **Adaptable storage solutions**
Simple to add to, as your storage needs grow.
- ★ **Strong “Z” profile beam design**
Unique beam design that offers capacities up to 1200kgs.
- ★ **Heavy duty shelf levels**
Shelf levels includes deck supports to match beam capacities.
- ★ **Guaranteed delivery in 5 days**
Get your stores organised quickly with no hassle.

Long Span Heavy Duty Racking

Economical storage whilst providing unrivalled strength and rigidity

The design offers an upright width of 47mm with a central tapered slot which offers a strong friction connection whilst being easier to install the beam levels. The beams are formed as an 87mm “Z” profile section with a 3 fingered claw that can be adjusted on a pitch of 50.8mm (2 inch). The beams are then fitted with deck supports on all bays 610mm and deeper. The tie also locates into the beam eliminating any beam rotation. Each level is then fitted with high density chipboard panels.

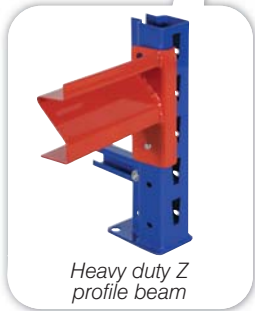

from
£127.95

Heavy duty deck supports

Secure location of beams

Heavy duty Z profile beam

Garment Storage

Cost effective and flexible garment hanging system, which fits our heavy duty long span frames

The rails come in pairs and are available in lengths 1220mm, 1525mm and 1830mm. The rail is a 30mm diameter tube and the rails can be adjusted on a pitch of 50.8mm on the frame.

Please note:

For frame prices see page 48.

Garment rails - levels only

1525	orange	90kgs	LS/GAR15	£19.35
1830	orange	80kgs	LS/GAR18	£22.55

Beams come complete with safety pins

Automotive Storage Solutions

We offer a range of solutions for automotive storage from tyre racks, vertical panel storage to hanging exhaust systems.

Steel Decking Panels

Galvanised steel panels available in 3 depths and all beam lengths

These panels are made from 1.2mm galvanised steel and simply drop into the step down beam. The hard wearing galvanised finish offers a clean, smooth finish enabling goods to be easily placed on the shelves and any spills wiped away. Other depths are available to order within 4 weeks.

Front detail of base

Cantilever Rack

Strong and easy to build system

Our cantilever system is based on modular bays and fittings to provide cost effective storage of long and awkward items. The frames are available in 3 heights and two depths in both single and double sided configurations.

Each bay comes complete with 3 arms per frame and you can add or deduct the number of levels required. The arms can be fitted with end stops (at an additional cost shown) to secure any loose products from falling off.

The frames are spaced 1000mm apart with bolted on X brace, so you can easily work out your run using the starter and extension bay. Prices below.

Great value storage for long and awkward items

from
£390.10

Vertical Rack

Offers a cost effective way of storing all those long and awkward items

Our new vertical racking is derived from our Heavy Duty Midispan system.

The system comes as a starter and extension bay format meaning long runs are more cost effective.

The bays come with 3 adjustable dividers, all necessary frames and base plates, two front beams, one back beam and base rail. Other size racks available to order, please contact your sales office.

Key Features and Benefits:

- ★ **Great value for money**
Now even more storage at minimum cost.

Heavy Duty Workbench

A range of heavy duty workbenches with a massive 800kg UDL capacity, ideal for heavy duty applications. The Heavy steel frames support a 40mm multi-ply beech worktop that will stand the rigours of the harshest use. The units can be fitted with a variety of suspended drawer and door cabinets, that can be fitted anywhere along the length of the bench for greater flexibility. The frames are blue RAL5012 and drawers and doors RAL7035.

Key Features and Benefits

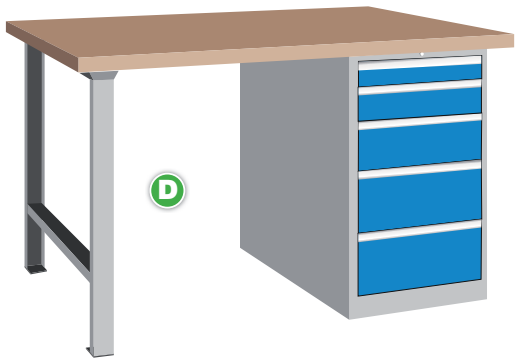

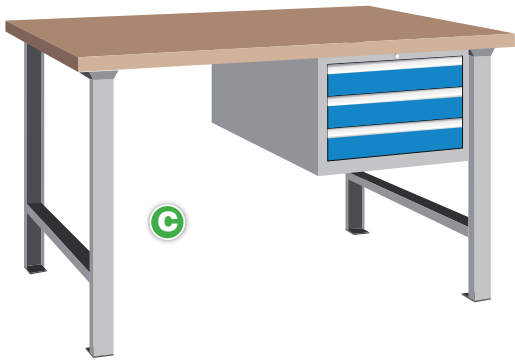

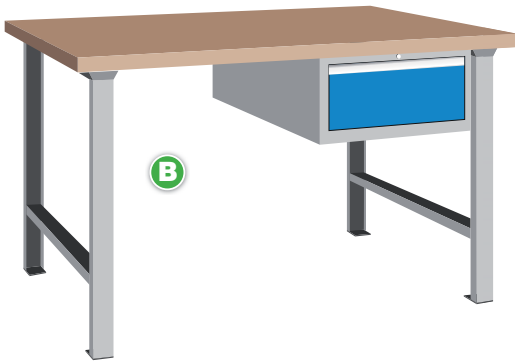

- ★ Simple to build and configure
- ★ Heavy duty – 800kgs Loading
- ★ 40mm Beech multi-ply tops
- ★ A wide range of drawer cabinets
- ★ 750mm deep and 840mm high

Trolley Shelving

Looking for a flexible storage solution? Then our range of mobile trolley shelving provides the perfect answer. Move goods safely and easily between work areas, making stock moveable, easy to replenish and secure. The fully welded base can support an array of the different bay sizes and configurations as well as each shelf being either a tray to stop goods falling off or a standard shelf (please specify when ordering).

Key Features and Benefits

- ★ Provide flexible storage solution
- ★ Fully welded base with castors
- ★ Move goods between work areas
- ★ Maximum bay load of 300kgs
- ★ Other sizes and specials available

Platform Trolleys

Our modular range of platform trolleys allow you to mix and match bases, ends and sides to make the perfect materials handling solution to suit your needs. The ends simply locate into the platform tubular frame and are held securely by a sprung bolt, which can be pressed to change the style of the end panel. The trolleys have been designed to withstand the demands of even the toughest warehouse environments, having a capacity of 500kgs and a wheel diameter of 200mm and a solid rubber tyre. The platform base is available in two sizes and they come complete with two braked swivel castors and two un-braked fixed castors. We have five different styles of end frame that are compatible with all three side panels. We also have a range of mesh panels that can make open or fully enclosed Parcel Cages with adjustable shelves.

Key Features

- ★ **A flexible modular system**
- ★ **Interchangeable end and side panels**
- ★ **Heavy Duty Design – 500kgs loading**
- ★ **Complies to EN 1757-3**
- ★ **2 Swivel braked and 2 fixed un-braked castors**

Louvre Racks

Our range of louvre racks provide an efficient way to organise small parts bins which include every size from our Rhino Tuff range. The racks provide a simple way to organise small part storage bins, providing a high density storage solutions whilst maintaining an efficient way to retrieve items from the picking face. The frames are made from strong box section profiles finished in light grey RAL7038 and the louvre panels from hard wearing galvanised steel. The units can be configured as stand-alone bays or built in runs using a starter and extension bays in either single or double sided formats.

- Key Features and Benefits:**
- ★ Heavy duty racks and trolleys
 - ★ Single or double sided racks
 - ★ Build as starter and extension bays
 - ★ Mobile units offer greater flexibility
 - ★ Hard wearing painted frames
 - ★ Tough galvanised louvre panels

Louvre Racks			
Item	Size (mm)	Code	Price
Rack single sided starter	1880 x 930	ARTBRKSSS	£282.75
Rack single sided extension	1880 x 930	ARTBRKSSE	£195.15
Rack double sided starter	1880 x 930	ARTBRKDSS	£399.15
Rack double sided extension	1880 x 930	ARTBRKDSE	£327.65

Louvre Trolley

Save wasted time travelling to items stored in static shelving installations by putting all your small part storage bins onto our Louvre Trolleys. Each trolley has been designed to perform to the highest standards with a robust frame design and tough galvanised louvre panels. Each unit comes with an ergonomic plastic handle so the unit can be comfortably moved. The trolley is fitted with heavy duty swivel castors, which offers ease of movement and with two of the castors being braked, this means the trolley is secure when not in use.

Chrome Trolleys

These Chrome wire shelving trolleys and bins provide a perfect storage solution for production and assembly environments, where goods need to be moved line side or to the point of use. There are 5 kit styles in three versions, providing single or double sided options using our most popular RHINO TUFF picking bins. We can supply all 5 kits in the coloured range of bins whilst the Kits A to D can come in either Recycled Light Grey or ESD Black. The trolley that holds the ESD containers will be fitted with conductive castors and metal collars to make it fully ESD compliant.

KanBan Shelving

Rivet racking KanBan is our solution for production line-side supply systems, where sloping shelves present containers for easy access and at the right height for operatives. This can reduce costs and increase efficiency for manufacturing operations or inventory management. The two bin arrangement simplifies stock rotation and replacement. When the front bin is removed the bin behind takes its place, leaving a space that is clearly identified for refilling on the next inspection.

KanBan Shelving:

Please call us to discuss your requirements.

Shelf Trays:

Our shelf tray range has been completely redesigned. It is now stronger, easier to use and great value!

Key Features and Benefits:

- ★ **New more competitive design**
- ★ **Improved strength and rigidity**
- ★ **More ergonomic features**
- ★ **Sprung loaded shelf stop**
- ★ **Can be sub divided**
- ★ **High density storage system**
- ★ **Offers faster retrieval times**
- ★ **Large range of sizes**
- ★ **Goods are kept clean**
- ★ **Better product identification**

NEW Shelf Stop/Handle

Plastic cover

Shelf Trays

Our shelf tray range has been completely redesigned with many new features that make it stronger, more competitive and easier to use. The biggest improvement is the addition of a sprung loaded shelf stop at the back of the tray.

This means the tray can be withdrawn from the shelf and suspended offering around 90% clear picking. This stop also acts as handle to make it is to carry.

With shelf trays available 3 depths and 2 widths and 2 heights, any configuration can be designed to offer the maximum high density storage solution.

Trays can be sub divided from left to right and all trays and dividers come with labels.

Premium Distribution Containers

Heavy duty attached alligator style lidded containers made from first grade polypropylene. Our premium range has been designed for industry but also suited for office moves, with foolscap lever arch files fitting perfectly. The containers are designed to provide safe transit & storage of a variety of goods as well as being able to stack and nest to save valuable space when returned or not in use. They have extra reinforced lids for safer stacking and protection of the goods stored and have either areas for adhesive labels or label indicators. The lids come with two locations at each end so tamper evident seals, cable ties and padlocks can be fitted.

Premium Distribution Containers

NEW

Euro Containers

Our NEW high-quality Euro norm series of stacking euro containers can be used for the food and non-food sector. They provide excellent value and performance due to the diversity of variants, the light, yet very stable construction using polypropylene copolymer. The containers are available in many different sizes and configurations, with nine solid side versions all with open handles that are available from stock and delivered within 5 days. We can also supply a variety of other models including ventilated sides, closed handles, four base configurations, dollies and hinged lids. Please contact the sales office for prices and lead times.

Key Features and Benefits:

- ★ High quality light grey Euro containers
- ★ Will fit 800x600, 1000x800 and 1200x1000 pallets
- ★ Reinforced side and corners for extra strength
- ★ Ergonomic open handles on two sides
- ★ Can be used on automatic conveying systems
- ★ Interlocking design for safe and secure stacking
- ★ Base and Lids can be fitted with tamper evident seals

50 x 80	LM58W	100	£39.90
Black dry wipe pen	PB/5	5	£9.81

Racksack - Warehouse Recycling Sacks

Waste management problems are easily solved with the racksack. The racksack is designed for most racking and shelving systems between 900mm and 1100mm. Once full, racksacks can be removed and emptied with ease. When hung it has a large open mouth to easily receive waste, yet its tapered design enables it to hardly encroach into the floor area. Originally designed for the warehouse the racksack's flexible method of 'S' locator fixing means it can be hung over or hooked onto any substrate making it ideal in other industrial areas such as factories, offices or anywhere where waste has become a problem.

Key Features & Benefits

- ★ **Easy collection of waste**
- ★ **Easy to fix, easy to remove**
- ★ **Help waste segregation**
- ★ **Hard-wearing and re-usable**

Rack Sack

Troax Boxes

Mini and Maxi Boxes provide a secure storage solution for both indoor and outdoor use. Troax Boxes are suitable for safely storing gas bottles, hazardous materials, and valuable plant machinery.

Maxi Boxes are available in 5 standard sizes but can be modified to suit your specific application. All Boxes come with a pad-lockable single or double door with a mesh roof as standard. Fixings supplied. Expamet (Expanded Metal) options are available.

Mesh aperture: 50 x 50mm

High quality powder coated finish is available in Grey RAL 7037 as standard. Other colours available upon request. Hot-dip galvanised finish for outdoor use.

Shelving is available for Mini Boxes (P.O.A.)

Key Features & Benefits

- ★ **Create secure areas with no fuss or hassle**
- ★ **High quality finish in powder coated in grey RAL7037**
- ★ **Wide range of sizes to meet your requirements**
- ★ **Secure mesh panels - 50 x 50mm aperture**
- ★ **Doors come with facility to fit a padlock (padlock not supplied)**

Troax Boxes

Troax Caelum Modular Mesh Partitioning

Caelum is a flexible system that can be used to build enclosures, boxes, storage units, and provide protection in automated warehouses.

It is particularly useful in bonded stores, low-level and semi-secure storage areas, and as small cage enclosures where high value retail goods (i.e. Smart phones, mobile telephones, tablets, laptops, computers, power tools, liquor, tobacco, etc.) are stored. A variety of additional features such as digital locks (pricing available upon application) provide increased security for high-value goods areas.

Caelum is available in multi-tiered elevations, enabling the end user to partition off large secure storage areas within warehouse environments, particularly useful for isolating and storing dangerous goods such as aerosols or combustible materials.

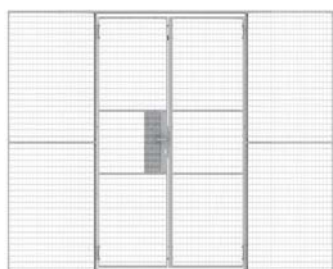

The Caelum Mesh Wall system is available in a variety of powder-coated finishes, or hot dip galvanised (for outdoor use).

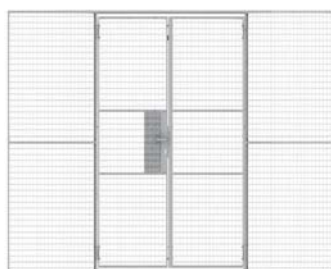

Troax Caelum Modular Mesh Partitioning

Height	Price
@ 2200mm High	£95.00 per Linear Metre
