TWO-HANDED SANDERS

These feature-packed sanders combine heavy duty performance and durability with low profile, light weight, ergonomic styling that makes them easy to handle and control.

TWO-HANDED RANDOM ORBITAL SANDERS

Available in 125mm and 150mm sizes, these new two-handed random orbital sanders also offer the choice of two orbits to suit your sanding operation:

- 5 mm orbit for general purpose sanding.
- 10 mm orbit for fast cutting in more demanding sanding operations.

POWER.
PERFORM.
CONTROL.

TWO-HANDED POLISHERS

Powerful performance and a compact, streamlined design that allows operators to polish even difficult to reach areas, make Mirka's Two-Handed Polishers the fast way to achieve a perfect, glossy surface finish. There are two options to choose from depending on your needs.

TWO-HANDED ROTARY POLISHER

The ideal tool for tackling a wide variety of polishing tasks with minimum fuss and maximum efficiency.

TWO-HANDED RANDOM ORBITAL POLISHER

Available in 77mm and 125mm diameters, combined with a 12mm orbit, this machine offers a quick and effective method of polishing. Its random orbital action delivers particularly impressive performance when buffing out sanding scratches.

Mirka's commitment to product innovation has resulted in an unmatched package of user-friendly features being designed into these machines.

Together, this new range of two-handed tools form part of Mirka's 'total sanding solution'. Its aim is to assist customers, across all applications, by delivering real benefits in terms of speed, first-class efficiency, surface finish quality and cost effectiveness.

POWER

- Robust and powerful – perfect for tackling long, heavy duty tasks with ease.
- Unique design with ideal ergonomics – low profile and light weight makes them comfortable and easy to operate for extended periods.

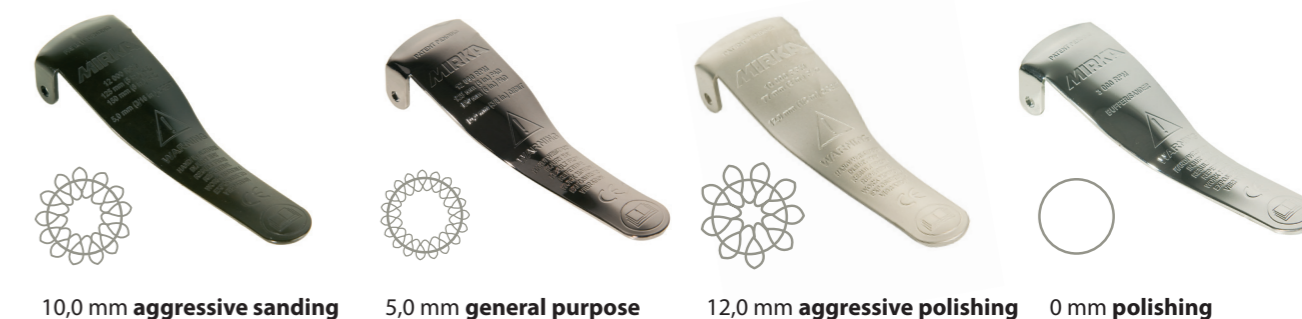

PERFORMANCE

- Side mounted speed control unit makes speed adjustment simple, even when operating.
- The Two-Handed Random Orbital Sanders were specifically developed for use with Mirka's revolutionary NETsanding™ products, including Autonet, Abranet and Abranet HD. That ensures they deliver maximum performance along with all the benefits of outstanding dust extraction.

CONTROL

- Excellent stability during operation.
- Optional side handle (included in package) provides an extra gripping point that increases control and reduces effort.

SELECT THE RIGHT ORBIT:

10,0 mm aggressive sanding

5,0 mm general purpose

12,0 mm aggressive polishing

0 mm polishing
