

## Spares overview

HVAC & Refrigeration Engineering Spares Division offers a complete supply service of HVACR engineering equipment, consumables and replacement parts from many industry leading providers, including Carrier, Bitzer and Bock. Our Spares division can also supply competitively priced refrigerant gases and hire equipment, such as deck freezers and portable air conditioners.

## Examples of suppliers

## Examples of spares we supply

- Air & chemical filters
- Air conditioning units & Portable A/C
- Air handling units
- Attenuators
- Axial fans
- Ball valves & bearings
- Belts, V-belts & pulleys
- Brazing/welding equipment & gases
- Chill/Freezer rooms
- Chilled water systems
- Coalescer filters
- Coil cleaner & Coil coating
- Compressor refurbishment
- Compressors
- Condensing units
- Cooling and condensing coils
- Copper pipe fittings
- Dampers (blast, fire & volume)
- Dehumidifiers
- Duct work & fittings
- Electrical equipment & ancillaries
- Evaporators
- Fan coils
- Filter driers
- Hazardous area equipment
- Heat Exchangers (plate, shell & tube)
- Heaters (duct, panel & cabin)
- Humidifiers
- Motors
- Pressure relief valves
- Pumps (sea & chilled water)
- Refrigerant leak detection
- Refrigerant gases
- Refrigerated container hire
- Refrigeration service gauges
- Shaft seals
- Thermostatic expansion valves
- Thermostats
- Vacuum pumps
- Water chillers
