The Versatile Choice!

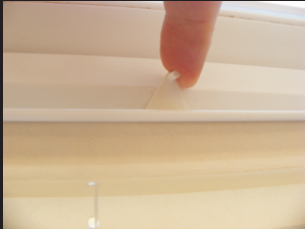

Your Conservatory & Pleated Blind Dealer:

YOUR CHOICE OF BLIND

Whether it's a complex conservatory roof, a tilt-and-turn window or any other window in your home, Pleated Blinds provide the perfect solution. We offer 3 types of blind:

Screw Fit

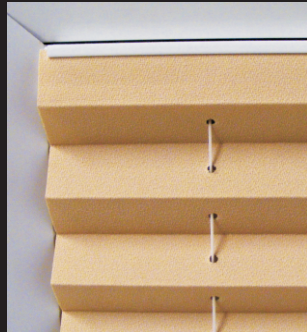

Screw Fit blinds clip on to swivel brackets that are secured to the window frame.

All our blinds are child safe

EZ Fit

EZ Fit blinds clip on to special brackets that fit between the rubber seal of the window frame and the glass. This eliminates drilling holes and avoids unsightly brackets and screws.

Perfect Fit

Perfect Fit is a fully cassetted blind that clips on to the window without the need to drill or screw in to the frame.

CHOOSING THE RIGHT BLIND

Whether it's for a conservatory roof or a window, we can advise which of our blinds is right for you.

EZ Fit and Perfect Fit are designed for modern windows that have a rubber seal and both avoid drilling holes in to the frame.

YOUR CHOICE OF FABRIC

Our two Pleated Blind fabric collections include decorative plains, luxury jacquard weaves, blackouts and solar control materials.

THE BASIC COLLECTION

The Basic Collection features a range of popular plain and jacquard weaves, many with solar control backings. A range of quality fabrics that offer exceptional value for money!

THE CLASSIC COLLECTION

The Classic Collection provides a more expansive choice of fabrics including solar and climate control materials, blackouts and decorative weaves.

All fabrics have a permanent pleat and easy care coating
