

01 TIME SAVING KITS

With this kit you have everything you need to give a 320 brushed finish to stainless steel mitres and outside box sections in almost no time.

On the back of the wrapper is a poster-sized step-by-step guide to help you achieve what you want to do. In addition, each kit contains a unique link where you can find detailed instructions packed with useful tips and tricks.

Matching machines and accessories are available at your authorised Cibo partner.
