

Testimonials

Oakwood Joinery recently made and installed a bespoke kitchen in our home. From the first contact, subsequent design work and final installation they acted as both a friendly and professional company. We asked them to handle all work including organisation of sub-contractors for Granite surfaces and hand painting finish. Every member of the team was friendly, a pleasure to have in our home and good at their job.

I would certainly recommend this company.

Dear Paul,

As we have finished this round of renovation, I thought it would be a good moment to thank you and your team for the quality of the oak windows and doors that you constructed and also for the quality of the fitting.

As you know making components to match existing items in a listed building is a challenge and fitting them inevitably exposes all sorts of issues that were unexpected at the outset. Not only are we delighted with both the windows and the internal doors, which match superbly the ones that you were asked to copy, but the fitting was outstanding, especially the interior doors where your fitters took in their stride the host of "old building idiosyncrasies" that they came across and were absolutely focussed on doing a perfect job.

Incidentally, the oak latch is brilliant, I wish we had found it before and used it on all of our "replacement" doors.

Very best regards

Graham Pitman

Checkingdon

Dear Paul

Thank you very much for doing this for us and I can confirm that we are entirely satisfied with the work as we are with the front door also made by you.

We get many compliments about it!

We won't hesitate to ask you to do anything in the future or to recommend you!

Kind regards

Jane Head

Wallingford

Oakwood Joinery supplied bespoke handmade wooden kitchen units for our new build traditional house.

We had a basic idea of how we wanted our kitchen to look and from the very start Paul was extremely helpful in guiding us through the various stages of the design and choice of wood to help us achieve our desired look. We even visited the workroom at Oakley Wood to see our kitchen being made by the team and once the units had been built they were delivered and installed in the house. After the installation we then chose a suitable colour for the units to be painted.

We are absolutely delighted with the end result - we have a bespoke kitchen that looks great, works well, has loads of storage space and has been greatly admired by friends and family - and all at a competitive price!"

Paul, I hope this is of some help. If you wish to take some photos of the finished kitchen then please let me know.

Kind regards,

Cecilia Wheeler

My recent experience with Oakwood Bespoke Joinery was a trouble free and highly professional. I live in a grade two listed building which need plans submitted to the South Oxfordshire District Council. The plans were drawn up quickly and professionally by Paul and his team and submitted. When a problem came up with the sourcing of rare building materials Oakwood made swift and accurate changes to those plans which were accepted.

The work that was carried out on my property was and is exemplary. I am particularly impressed with the seasoned oak front door work which was engineered so accurately that there was no need for any additional draft exclusion.

Thank you Oakwood Joinery. I will always recommend your work.

I am yours sincerely,

Lucian Gaudoin

Hi Paul

Just wanted to say thank you - especially to the boys doing all the work (!) for such a great - and virtually stress free - window replacement experience :-)))

The house looks great!

Kind regards

Helen Lester

Nettlebed

Dear Paul

I would fully recommend Oakwood Bespoke Joinery - both myself and my builders were very impressed with the service that they provided.

The intricate Victorian cornice around the front of our house had suffered bad wood rot and needed replacing. We were fearful that this would halt our renovation works but mindful of this, Paul Bateman kindly visited us on site within a couple of days. He was punctual, efficient and accurate at measuring up and gave us informed advice on the type of wood that should be used.

The quotation came through quickly and we were soon in receipt of our new cornice, which looks fantastic and is an exact replica of the original! Our renovation project was soon back on track and we cannot thank Paul and his colleagues enough!

Many thanks

Datchet

We hired Oakwood to replace a staircase in a listed building. Paul and his team did a great job, firstly at understanding our requirements, and then at making the right suggestions and tailoring it to our very old building.

Although there was a hiccup when the first part was fitted, Paul took complete ownership of ensuring it was rectified and it was clear they were never going to leave a job until it met their high standards. The overall project from first design through to completion took around 2.5 months and it was always easy to stay in touch and understand what the next steps were.

I would fully recommend Paul and his team, we are very pleased with the final outcome.

Many thanks

We had Oakwood Bespoke Joinery completely remodel our kitchen including outside doors and windows. It was a big job. They were working in solid oak, and did a spectacular job in choosing and matching colour and grain to eye-catching effect. The craftsmanship was superb.

The installers were careful and took care of all the little details and snags that came up. It took longer than the estimated time to complete and install the entire kitchen, but we kind of expected that in as complicated a job as it was.

Communication was good. Courtesy and patience were good. We would happily use them again.

Many thanks for a wonderful job
