

Cobra Engineering (UK) Ltd Health & Safety Policy

Cobra Engineering (UK) Ltd (the company) recognise the importance of Health and Safety in the workplace and acknowledge our legal and moral obligation to take all practical measures to prevent injury or harm.

The company recognise engineering activities can be hazardous and ensure staff are protected by providing the appropriate training and personal protective equipment (PPE) for the assigned task.

Recognised training courses and accreditations are regularly undertaken (including renewals as appropriate) for the safety and wellbeing of our staff and customers. Such training includes but is not limited to:

- Safe use of abrasive wheels
- Safe manual handling techniques
- Safe use and operation of scissor lifts
- Safe use and operation of cherry pickers
- Working safely in confined spaces
- Safely working at heights
- Safe use of tower scaffolding

The company participates in the Construction Skills Certification Scheme and ensures staff possess a valid and current CSCS card for the tasks to be undertaken on the customer's premises.

The company are accredited under the Safe Contractor Scheme.
