

TITGEMEYER ↔ AUTOMOTIVE

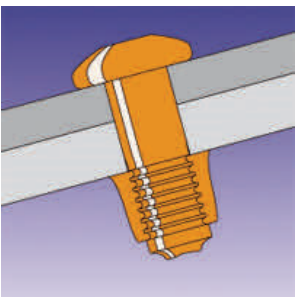

Supporting vehicle manufacturers since 1901

In-depth application engineering is what the TITGEMEYER name has represented for more than a century. TITGEMEYER Group has been an active and innovative supplier to the European automotive industry for many years. Application solutions have been the cornerstone of partnerships with many leading OEM and 1st tier suppliers. TITGEMEYER - your solution.

TIFAS[®] LockBolt pin and collar fastening systems

Safety critical fixing in over 16,000,000 car seats

TIFAS[®] LockBolt pins and collars are manufactured in the West Midlands of England by Titgemeyer (UK) Ltd who are ISO/TS 16949 approved. The high strength and absolutely vibration-proof characteristics of the system are ideal for many applications in the manufacture of cars & vans.

For example TIFAS[®] LockBolts have been used on safety critical height adjustment fixings on over 16 million cars seats. The pins and collars are installed using bespoke workstations, which are equipped with our TIOS[®] Control process control system that monitors and documents every fastener installation.

Our TIFAS[®] LockBolt and TIOS[®] Control systems are designed to suit the demands of each specific application. Quality and safety is guaranteed.

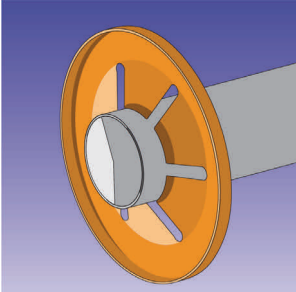

- Process control ensures correct installation of every fastener
- High installed shear and tensile strength
- Permanent clamp load
- Absolutely vibration safe cannot loosen in-situ
- ISO/TS 16949 approved manufacture

■ **STARLOCK[®]** push on fasteners

No looking back with Starlock[®] wing mirror fixings

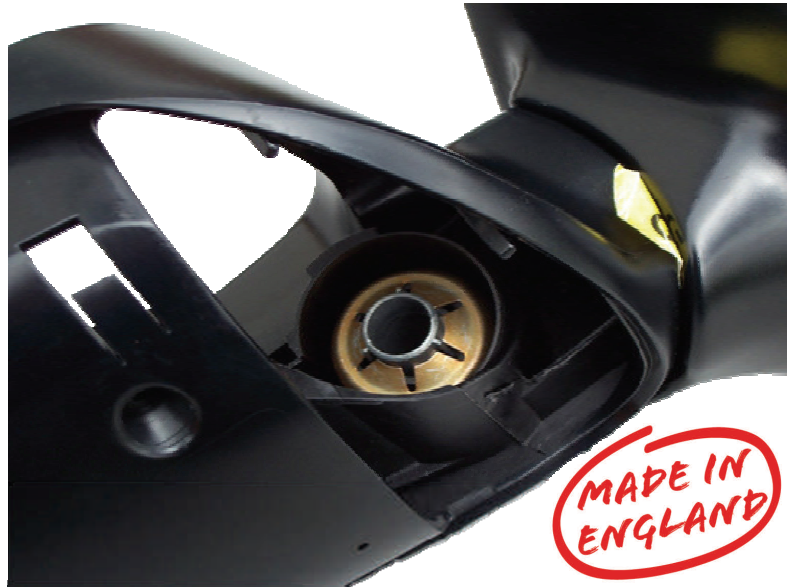

Baker & Finne more, a subsidiary of TITGEMEYER, was founded in 1850 in Birmingham and today manufactures Starlock[®] push-on spring steel fasteners.

Starlock[®] is used in the design of thousands of products around the world including many different automotive applications.

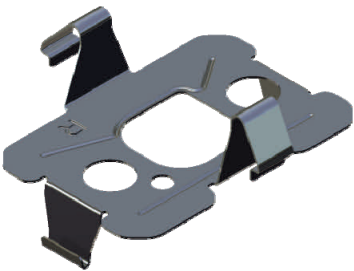

For example the 25 mm reversed raise Starlock[®] is the perfect solution to fasten car wing mirrors.

B&F are ISO/TS 16949 approved.

■ **STARPRESS[™]** precision metal pressings

Bespoke spring steel products made-to-measure

Baker & Finne more also manufactures a wide range of Starpress[™] spring steel fasteners and clips for the automotive industry. Every Starpress[™] pressing is unique, designed to suit each individual application.

For example over 575,000 sun visors have been fitted using specially designed Starpress[™] clips.

Many leading car makers have benefitted from TITGEMEYER products & services
