

#Meditelle

THE MEDICAL REUPHOLSTERY SPECIALISTS...

A complete onsite visiting service offering hospitals, clinics and surgeries UK wide a professional re-upholstery service for any brand of medical couch, patient chair or waiting room seating.

Onsite Reupholstery Service

- All Makes and models recovered - Whatever the type or brand of couch or chair you have, and whatever its condition, Meditelle can restore it to its former glory.

We can recover medical couches, plinths and treatment chairs plus patient waiting room chairs and bench seating.

- All procedures carried out on your premises with minimal disruption - Our expert upholsterers use the highest standards of traditional skills backed by the latest technology to carry out a full onsite re-upholster of your equipment, minimising disruption and downtime.

The Materials

All our materials are CQC compliant:

- Meditelle's medical grade foam topper with anti-combustion properties.
- Meditelle's anti-microbial vinyl's are MRSA / E-coli resistant and meet British testing standards to ensure safety, longevity and durability. Our large selection of medical grade upholstery vinyl's are hydrophobic and can be easily wiped down to clean.

...REVIVE YOUR
MEDICAL EQUIPMENT

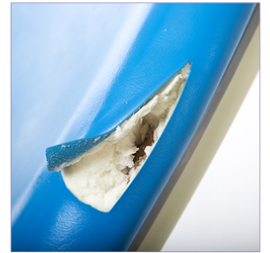

Infection Control

Ensuring the safety of your equipment such as medical couches, plinths, patient treatment chairs and seating is vital.

If an upholstered section is penetrated and the inner foam can be seen, it is impossible to carry out proper cleaning and decontamination of a potentially contaminated surface.

Re-upholstering the vinyl covering may be all that's required to reduce the spread of contamination if you have any slits or tears in your equipment vinyl covering that presents a serious infection control hazard. Treating this quickly and efficiently with our re-covering service limits the chances of infections and keeps your equipment safe and hygienic.

As part of the sanitisation process we will also top / replace old foam if it is damaged, worn or has become weak.

On-site Visits

All processes are carried out by our expert upholsterers on-site at your clinic, surgery or hospital, ensuring your equipment will not be out of use for more than a few hours. We can upholster your equipment around your busy schedule and early time slots prior to opening are available.

When you book our service we will arrange a convenient date and time for us to visit and carry out the works.

Quotation Process

To obtain a quotation you will be asked to email us images of the equipment you require re-upholstering along with a postcode location. This will allow us to quote accurately for your job.

Quotation Pricing

A total price will be quoted and charged to cover the following:

- A technician to visit your location
- All materials required i.e. vinyl fabric/ boards & foam
- Complete process to strip and re-upholster your equipment on-site

Prices dependent on design / model, quantity and location.
