WALL AND CEILING PANELS

TILING MADE EASY

How long have you had the desire to renovate your bathroom or kitchen? But you really have no clue how to start? Scared of high costs to remove your current tiles and install new ceramic tiles? Not willing to face two weeks not being able to use your bathroom at home?

You have come to the right solution. Dumalock is the solution to all those answers.

DO IT SMART

These days it's all about maximizing quality time with our family, friends and enjoying the tranquility of our home. So whenever you plan home improvements, do it smart.

Cut costs, minimize the time you spend and make sure you get the fruits of your work in the shortest possible time.

Dumalock is smart, you'll see.

“IT'S LIKE LAMINATE FLOORING FOR MY WALLS...”

This is exactly how most of our customers react upon seeing Dumalock. And actually they are right. You just install Dumalock the same way you would install a regular click laminate floor.

Four sides tongue and groove click, light weight, short lengths and easy to glue or staple, it's tiling made easy.

AMAZING LOOKS, BUT HOW TO FIT...

Tiles have always been difficult to install and have never been a real DIY product. Dumalock is changing the rules. From now on you have two options to avoid high tiling costs.

Take a look at the opposite page and you will understand how easy tiling can be. Either do it yourself or get a fitter, and you will save yourself a fortune.

TWO INSTALLATION OPTIONS

Facing a renovation or a new home construction, Dumalock will be your smart partner. It can be installed practically over each base surface, depending on your own preference.

WOOD FRAME

Build up a framework in softwood over your existing wall if you need to cover an old and rough wall. You can build a division wall in a wood frame or even build up a full woodframe house. Dumalock can then be stapled or nailed right onto the framework.

GLUE ON EXISTING WALLS

Save yourself some time and glue Dumalock right on your existing walls. No need to remove the currently installed ceramic tiles, you will get a fast and amazing result without the dirty work.

CLICK AND CONNECT

Experience our patented connection system with four sides tongue and groove. Building a tile wall has never been this easy thanks to our simple joining system.

You can opt to install the tile effect parallel (4a) or in correlation (4b). Each connection between panels will recreate a realistic grouting effect.

EVERYTHING TO YOUR ADVANTAGE

Tiling with grouting is a thing of the past. By simply fitting the panels together, you create a realistic tiling effect thanks to the shallow grooves in the base material itself without messing around with grouting, adhesive, cutting machines, etc.

Dumalock's user-friendly panels are just 120 cm long and are extremely light, yet retaining their durability for wall covering. They are so easy and quick to fit; you can easily do the work on your own.

The Dumalock panel can be connected along four sides, even on the cross-cut side. Hereby you can bridge any length of a wall or ceiling.

Dumalock panels are made from water-resistant synthetics that are fully washable, which makes maintaining the panels incredibly easy. Just wipe them down with a damp cloth and your wall or ceiling will be just like new. Naturally, Dumalock keeps its original colour.

Dumalock is packed in a handy and sturdy Dumalock box. You can transport it easily in your car and it will even fit in the elevator up to your apartment.

CLEAN
No more dirty grouting work | 

EASY FIX
Easy to install | 

LOCK-IT
No extra connection trims | 

RESISTANT
Water-resistant and colourfast | 

EASY SIZE
Easy to transport | 

IT'S ALL ABOUT SAVING COSTS

Dreaming of some nice bathroom furniture, but tiling is taking a large gap out of your budget? Installing Dumalock will enable you to upgrade your bathroom.

The installation of Dumalock by a professional fitter, compared to ceramic tiles, will be significantly cheaper. Choose Dumalock, save money.

GET THE FULL PICTURE

Dumalock is the first do-it-yourself tile. The patented joining system is completely unique, since the panels are connectable along all sides and the tile grooves have been concealed within the panel. These embossed tile grooves provide a very authentic feel.

Check out the comparison between tiles and Dumalock and discover even more advantages. Same looks, less maintenance and lower budget.
