## **“Budget” Vehicle Incident Camera Seeing Is Believing!**

The first budget compact Drive Recorder with a simple mounting bracket designed for the private motorist as well as commercial vehicles

Ideal for all applications such as Police, Ambulances, Fire Service, Couriers, Hauliers, Taxi, Fleet operators and Private Cars and many more.

It also features a “Motion Detection Mode” when parked. If an object or person comes into the field of view when the vehicle is parked, then the DRAA8 will save the file as an event file. This will assist when somebody damages a vehicle whilst parked
