## TOCSIN 102

**Series Gas Detectors** 

4-20mA Device 2 and 3 Wire

- Addressable Versions
- Compact Size
- EExd Certified
- ATEX Certified
- Ingress Protection IP66

### Available as:

- 2 Wire Toxic Gas Detector
- 2 Wire Oxygen Sensor
- 3 Wire 'Infra Red' Flammable Gas Detector
- 3 Wire 'Infra Red' CO2 Gas Detector

The Tocsin 102 series of gas detectors are ATEX approved sensors which incorporate micro processor technology to give a stable 4-20mA process signal output. The addressable option allows extensive reductions in cost of installation through material and labour savings. The in built processor can be used to pre-calibrate the sensor prior to installation. A range of sensing technologies can be incorporated into the housing to provide the most appropriate detection method. Available sensor types include Infra red and Electrochemical and PID devices.

## **General Specification**

Power supply Electrical Outputs Temperature Humidity Ingress Protection Housing Material Protection Concept Dimensions (mm) Mounting Thread Weight 18 to 28V DC

# TOCSIN 102 Infra Red Point Gas Detectors

The Tocsin 102IR series of gas detectors uses the proven Non-Dispersive (NDIR) principle to detect and monitor the presence of gases.

The detectors are supplied as pre-calibrated units with linear 4-20mA outputs. If necessary the detector head can be field calibrated or reconfigured for different gases or ranges using its inbuilt serial port and separate data terminal. The infra red detectors employed have been field proven over many years use resulting in a series of detector heads with excellent stability and reliability in the most arduous conditions. The detector heads have their own control software which continually monitors the head performance. This ensures that in the unlikely event that a fault occurs it is detected and reported immediately. Using the inbuilt serial port this series of detector heads can be integrated onto addressable systems such as the Tocsin 700 or 900 control panels allowing sensors to be 'daisy' chained for ease of installation and operation.

- LONG MTBF
- EXTENDED CALIBRATION PERIODS
- ALL STAINLESS STEEL CONSTRUCTION
- ADDRESSABLE SERIAL PORT
- CAN BE FIELD CALIBRATED
- LINEAR 4-20mA OUTPUT
- AVAILABLE FOR A WIDE RANGE OF FLAMMABLE GASES AND CO2

Performance
