

FILON® roofscape

Your regular update from the leader in GRP building products

IN THIS ISSUE: • REFURB CASE STUDIES • NEW PROFILED ROOFING CPD SEMINAR • FILON AT THE RCI SHOW • AND MORE

Refurbishment of GRP roofs and canopies at the iconic Byker Wall estate

Filon Products has supplied roofing to access decks and canopies for doorways and covered walkways as part of a refurbishment programme at the Byker Wall Estate in Newcastle upon Tyne.

Designed by notable architect Ralph Erskine and completed in the 1970s, the estate occupies a 200 acre site previously comprising Victorian slum terraced housing. It is widely recognised as a successful example of urban regeneration and has won many architectural awards.

Today the estate is Grade 2 listed and recent refurbishments have involved careful reinstatement of original features and colour schemes, using modernised materials where possible, while retaining the look and feel of the 1970s design scheme. [Read more.](#)

Filon in the spotlight at the RCI show

The Filon stand at the RCI show at Coventry's Ricoh Arena in October, was a busy place to be!

Over the two days of the show, Filon welcomed hundreds of visitors and received enquiries for a wide range of projects, from rooflight refurbishment to specialist cladding for harsh industrial environments. [Read more.](#)

Roofing & Cladding refurbishment at the London Gliding Club Building

Filon was called upon to provide a refurbishment solution for the Grade 2 listed London Gliding Club Building in Totternhoe, Bedfordshire, at the foot of the Dunstable Downs.

The Club is one of the largest and oldest of its kind in the UK, having been in existence since 1930. In 1935 the original wooden hangars at the site were replaced by the present building designed by the renowned architect and club member Kit Nicholson. [Read more.](#)
