

Bead & Butt MDF Sheets

Bead & Butt MDF is a perfect, labour-saving way to cover walls and ceilings giving the appearance of tongue and groove boarding. Made from Moisture Resistant MDF, it has an exceptional pre-sanded surface.

V Groove with a Bead has become particularly popular because its visual impact is maintained from whatever angle the profile is viewed.

Split-edges are a great feature that enhance the look of the completed job, it means the joint between abutting panels is at the bottom of the 'V Groove', rendering it more or less invisible to the eye.
