Chiller with Filter System

This top of the range chiller and deluxe filter package will give you ice cold, great tasting, healthy drinking water as required. The filtration system incorporates the Silverline® heavy metal reduction filter to remove many undesirable elements from your drinking water. These include chemicals such as chlorine, herbicides and pesticides, a wide range of heavy metals including lead & aluminium plus fluorides & nitrates. A stylish high quality, double lever dispensing tap provides access to chilled or ambient water. Enjoy the assurance of tasty wholesome water you can trust.
