

ALARMS

800 Series OEM Mounting Pattern

Designed to meet all the harsh operational requirements of any fleets equipment, ECCO's 800 Series alarms feature a reverse-mounted speaker design and reinforced nylon housing providing unrivaled durability. These alarms are so robust that an ECCOLIFE™ warranty covering the alarm for the life of the vehicle is offered on all models. These 800 Series alarm models feature a mounting bracket with the same mounting pattern popular with OEM's. Smart Alarm® models measure ambient noise and adjust their sound level, creating a volume that is safe without being annoying or contributing to noise pollution. Smart Alarms eliminate the need for constant manual adjustment and help prevent intentional alarm disconnection.

Models

PART NO.	TYPE	VOLTAGE	dB(A)	AMPS	APPROVALS
914N-001	Smart	12-24	87-112	1.5	SAE Type F, CE, R10
876N-001	-	12-36	112	1.3	SAE Type A, CE, R10, UL, AMECA

Features and Benefits
