## EC7000B-WK Gemineye™ 7.0" Colour Wireless System

The Gemineye™ wireless camera system features 2.4GHZ digital signal transmission and offers quality and functionality equal to wired systems. Featuring a 7" LCD colour monitor and a CMOS infrared camera, this system delivers excellent picture quality. The system is expandable to operate up to 2 separate cameras (EC2028-WC only), each with independent trigger wires and all using a wireless signal to transmit image data to the monitor. This system dramatically reduces installation complexity and expense while eliminating the potential for wires being damaged during operation of the vehicle.

### Features and Benefits

- Includes monitor sunshade
- Two camera expandable
- 2.4 GHZ digital wireless system
- Internal controller
- Wireless system reduces installation time

**EC7000B-WM**

approvals	FCC, CE, RoHS
voltage	12-24
power consumption (W)	7 (approx)
audio	No
day / night light sensor	Yes
dimensions	176mm x 123mm x 27mm
weight	0.67kg
temperature	-20 to +70
screen size	7.0"
mirror image	Yes
sunshade	Yes
max cameras	2
Distance	30-100 M

**EC2028-WC**

approvals	IP66, FCC, CE, RoHS
colour	Yes
power consumption (W)	5
microphone	No
day / night light sensor	Yes
dimensions	90mm x 60.5mm x 56.5mm
weight	0.54 kgs
temperature	-20 to +70
lens angle	120°
lens size	1/4"
infrared LEDs	18
mechanical vibration	8G
Frame Rate	25FPS
