Subject: **AccuView LED Update****Official Communication 314**

Dear Valued Customer,

The new AccuView LED models, PN# 28041 & 28042 (with flow switch) will be replacing the older style AccuView UV. These new models offer a number of improvements including:

- Longer lamp life
- Faster update cycles
- Mercury free operation
- Two measurement scales, % Transmission and Absorbance

Download product brochure: <http://hfscientific.com/DAMP/S-HF-AccUViewLED.pdf>

As of today, the AccuView UV, PN # 19577, will be discontinued.

All warranties for the previous model AccuView UV will remain as outlined in their original documentation.

To best serve you, all inquiries and requests should be directed through the normal sales channels.

Sincerely,

Renato Trovo  
General Manager, HF Scientific
