SENSATIONAL NEW PRODUCT

# Solar Powered Blinds

## Innovative

After extensive development and testing we are pleased to announce the launch of the NEW Solar Powered Keylite Blind.

The battery pack, the motor for powering the blind, and the roller for holding the blind fabric are contained in a cassette secured to the top of the window sash.

This innovative feature puts Keylite right at the forefront of blinds technology and is the simple answer to opening and closing blinds in areas difficult to access.

## Easy Install

The installation process does NOT involve any wiring or tracking the walls for mains electric.

## Free Energy

The solar panel is located in the outward facing edge of the cassette and collects energy from the sun which then provides a trickle charge to the replaceable battery pack.

## Control

The solar blind is controlled with a hand held remote which can be programmed to operate single or multiple blinds arrangements.

Solar panel

Hand held remote control

Let the  
**Sun**  
do the work

# Practical Features

## Unique Design

Keylite blinds come with slim aluminium side rails for smooth operation and a clean classic look. This also gives increased natural light when the blinds are open

## Fully enclosed cassette

Protects fabric from discolouration and eliminates light glow around the edge.

## Energy efficient

Controls solar heat gain. Thermal benefits reduce heat loss by at least 20%. (BBA Tested)

## Fabric Options

Available as blackout, dimout and moisture resistant.

## Fingertip control

Easy and smooth operation.

## Fully encased side rails

Brush seals provide 100% blackout and improve thermal efficiency.

## Surround Choice

White Finish Surround - The perfect complement to your White Finish windows.  
Aluminium Surround - Ideal with Pine Windows for a contemporary finish.

**Cord free**

100% child friendly

## Upgrade to Electric

Our solar powered and electric blinds are ideal for those out of reach locations from the comfort of your armchair or bed

## Fabric Choice

### Choose Blackout

**No. 1 choice for bedrooms and cinema rooms.**

We offer an extensive range of blackout blinds, all of which include thermal fabric as standard, for extra cosiness and warmth.

### Choose Dimout

**No. 1 choice for living rooms and landings.**

For those who want to transform their home into a place of restful relaxation, then the dimout blind is the perfect choice.

### Choose Moisture Resistant

**No. 1 choice for bathrooms and kitchens.**

Wipe clean blinds which are completely moisture resistant. No more stains, no more odours, just blinds that can stand the test of time in your home.

## Operation Choice

### Solar Operation

The Solar Powered Keylite Blind is the simple answer to opening and closing blinds in areas difficult to access. The solar blind is controlled with a hand held remote control.

### Electric Operation

Our complete range of Keylite blinds is available with electric operation (for electrically operated PEK windows). Our electric blinds are ideal for blinds in areas difficult to access.

### Manual Operation

One-touch, fingertip control for problem free manual positioning of the blind.

## Accessories

### Opening Pole

Manually control your window and blind with a telescopic opening pole. The telescopic pole is available in 2m and 3m lengths.

### Opening Restrictor

For added safety, a Keylite opening restrictor is available.

### Security Lock

A Keylite security lock can be fitted for added security.

# Colour Options

## ESSENTIALS Neutral tones to complement most interior spaces

## DECOR Stylish colours for unique interiors

## AQUA Moisture resistant PVC fabrics

## KIDS Vibrant patterns for fun interiors

- Available in blackout
- Available in dimout
